

PAGAN Bingo

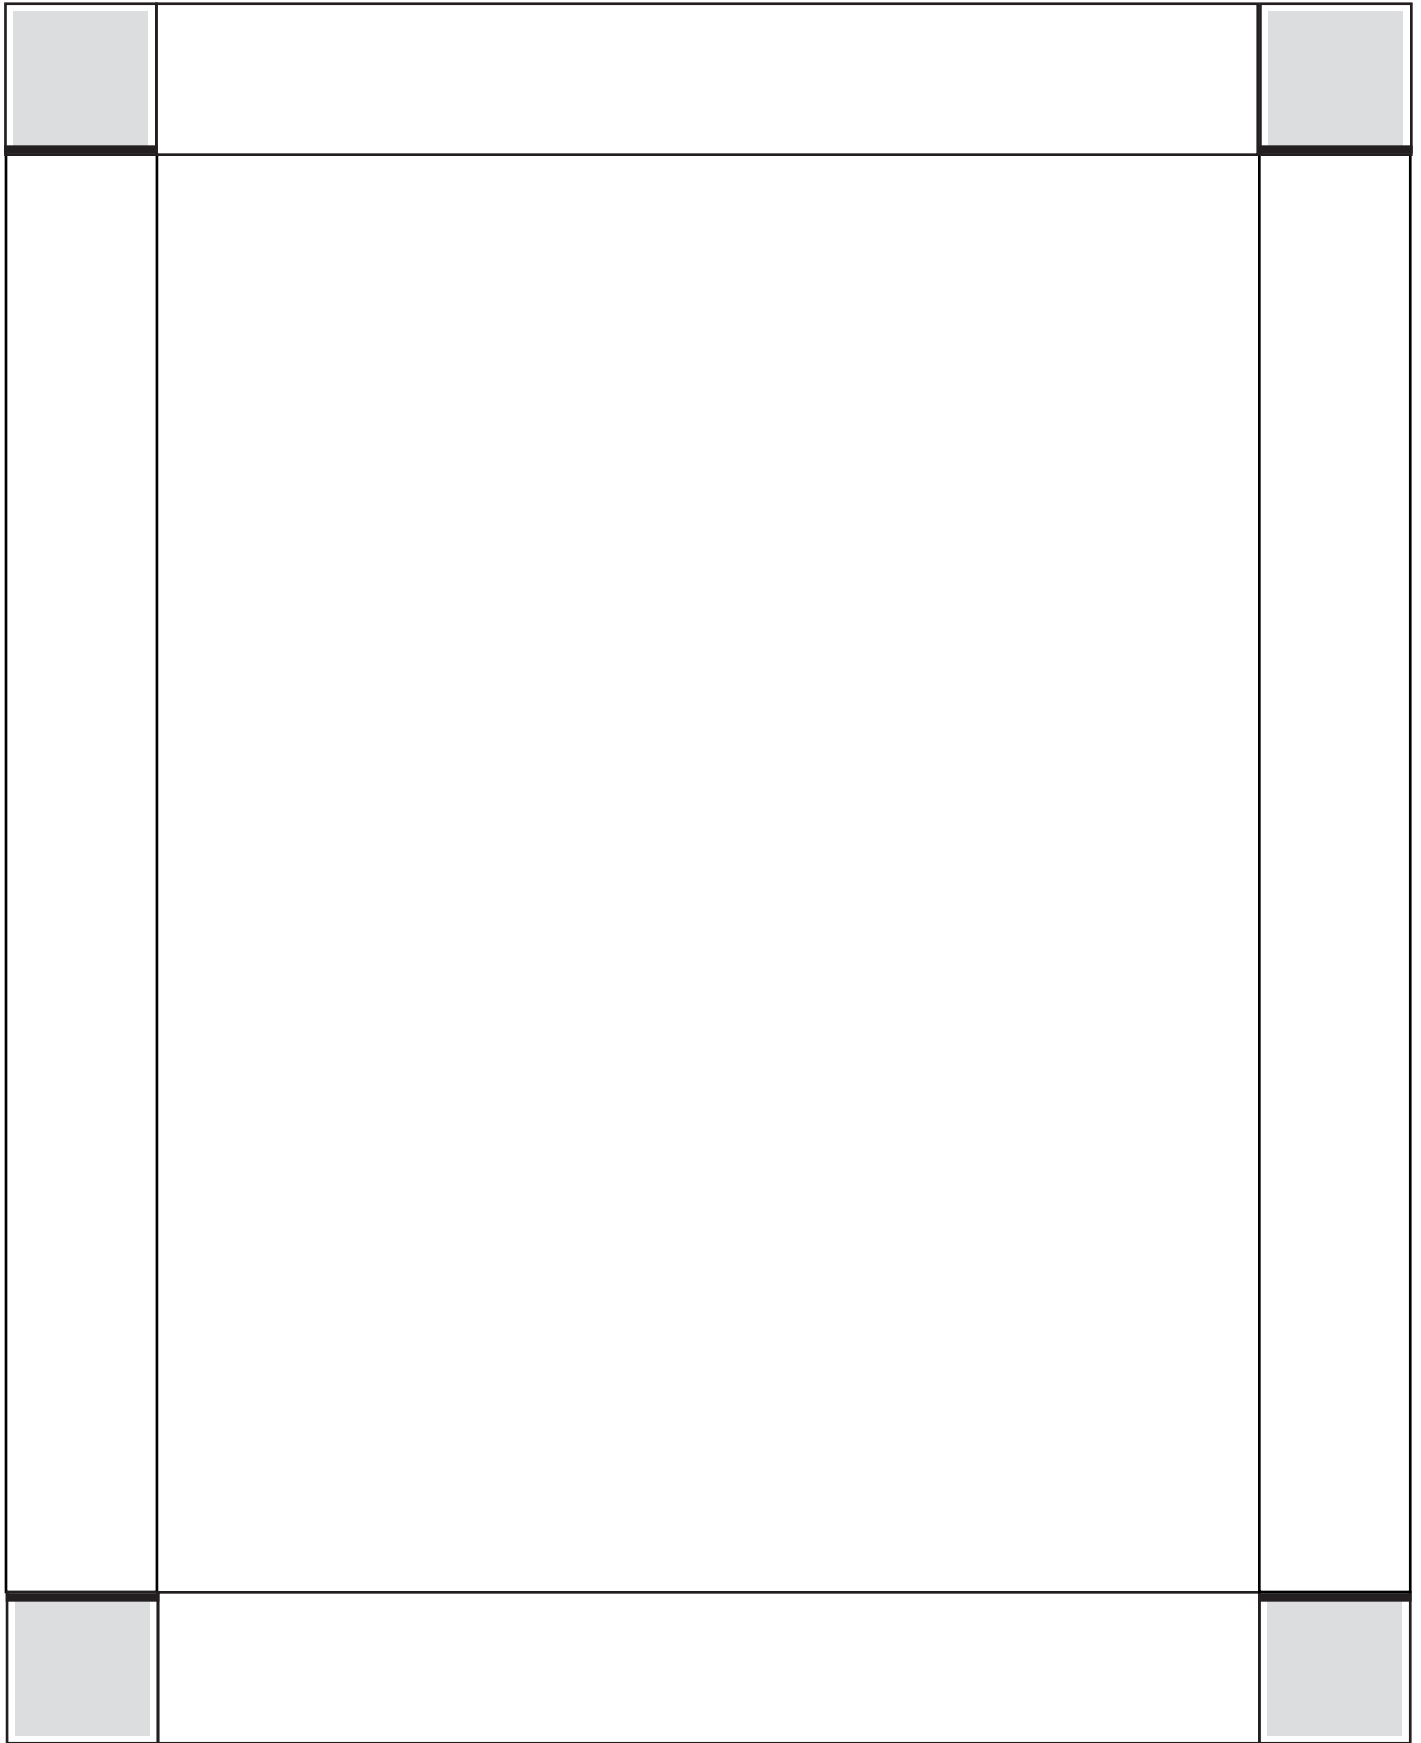

For 2 to 5 Players & FOR ANY AGE!

TO PLAY:

- ⊛ One person reaches in and pulls out a slip...they call out the word everyone looks for an image that best represents that word...if they have a matching image they put a stone (or marker) on it.
If they don't have an image - they must wait for the next word.
Place the Slip of paper back into the pile.
- ⊛ Only one spot can be marked at a time. (If Earth is called than only one image can be chosen of the choices that may be available.
If Earth is called again, than a second marker on an Earth image can be placed.)
So choose your spots wisely.
- ⊛ The Center Pentacle is a FREE spot to put a marker or stone on
- ⊛ The first one to get 5 stones in a row (vertical, horizontal or diagonal) needs to yell PAGAN to win!
- ⊛ Optional: you can keep a tally of what words have been called before someone yells PAGAN!! But it really is just for fun of learning!
- ⊛ Each card contains at least one image for each of the listed tabs on the right!
- ⊛ You can question someone if you are interested to know why they choose a particular spot...it makes sense to put a marker on the image of a goldfish in his bowl of water - if Water or Earth was called but maybe not Air.
Many images can fall into multiple categories.
"Technically" there are no wrong answers!
- ⊛ Optional: For more than 5 players, use the blank Pagan Bingo Card and have each player create their own card to play on.

1 inch

Bottom of PAGAN Bingo Box: PRINT off and CUT out on OUTSIDE lines only! Make a SNIP on the 4 THICK black lines. FOLD into box, on all other INSIDE lines. Apply glue to Square Corner Tabs and glue to the inside of the box walls. Press it together until it holds. Let it dry before using.
