Design and Idea\* Belongs to

Images from Microsoft Clipart!!  
\*The idea refers to the child's  
cell phone/flip phone that is  
a direct line to speaking with  
God and/or Goddess (hense the  
"brand name" GnG).  
Instead of dialing numbers  
(like we would dial 911 for an  
emergency) we use images to  
help focus our intention when  
speaking with G 'n G. They can  
be interpreted in many ways and  
used in any combination the child  
feels necessary in order to reach  
the desired outcome of the call  
they have choosen to place. In  
a world where technology is as  
"second nature" as eating and  
drinking... cell phones are the  
new way to communicate / pray  
to G 'n G...
